## Rate Case Update.

These rates are effective **May 14, 2007**. However, the rates are subject to change from the USPS.

This is the most comprehensive rate change in years. The new rates are now based on weight and shape and not simply by category. Your mail piece may be categorized differently based on these changes. Let our experts help you solve the rate case puzzle by calling us at **775.355.6800**
